

## **Pediatric Education for Pre-Hospital Providers (PEPP)**

Do you have the skills to answer these questions in the first few seconds on-scene?

- How sick is this child?
- How quickly do I need to act?
- What is this child's physiological problem?

Pediatric Education for Pre-hospital Professionals (PEPP) represents a complete resource of pre-hospital medical information to the emergent care of infants and children. Developed by the American Academy of Pediatrics, PEPP is an exciting curriculum designed specifically to teach pre-hospital professionals how to better assess and manage ill or injured children.

This course is designed to assist providers with how to handle pre-hospital medical information for the emergent care of infants and children. Developed by the American Academy of Pediatrics, PEPP is an exciting curriculum designed specifically to teach pre-hospital professionals how to better assess and manage ill or injured children.
